

TXTA INITIATIVE

Build Public Support and Combat Lawsuit Abuse

Our Commitment: Ensuring Texans Know
Trucking Delivers Critical Goods Safely

88

percent

of the nearly 65,000 trucking companies in Texas are small businesses—the economy runs on the back of trucks

3.5

million heroes

are driving trucks during the coronavirus crisis, working overtime to keep the supply chain moving

82

percent

of Texas communities depend on trucks to move their goods, while 1 in 15 jobs come from the industry

We need you! **TXTA and a growing coalition of partners are proposing changes in state law** to level the playing field. Join us in the fight!

Our Goal: Curtail Rising Premiums by Combating
Nuclear and Inflated Verdicts in the Courtroom

the scheme

plaintiff lawyers and unscrupulous medical providers partner to side-step insurance based medical rates

the cost

exaggerated costs are used to leverage settlements resulting in inflated insurance rates and nuclear verdicts

the result

premiums increased as much as 30 percent in 2019 forcing insurers to leave the market and trucking companies to close
